**14,000**

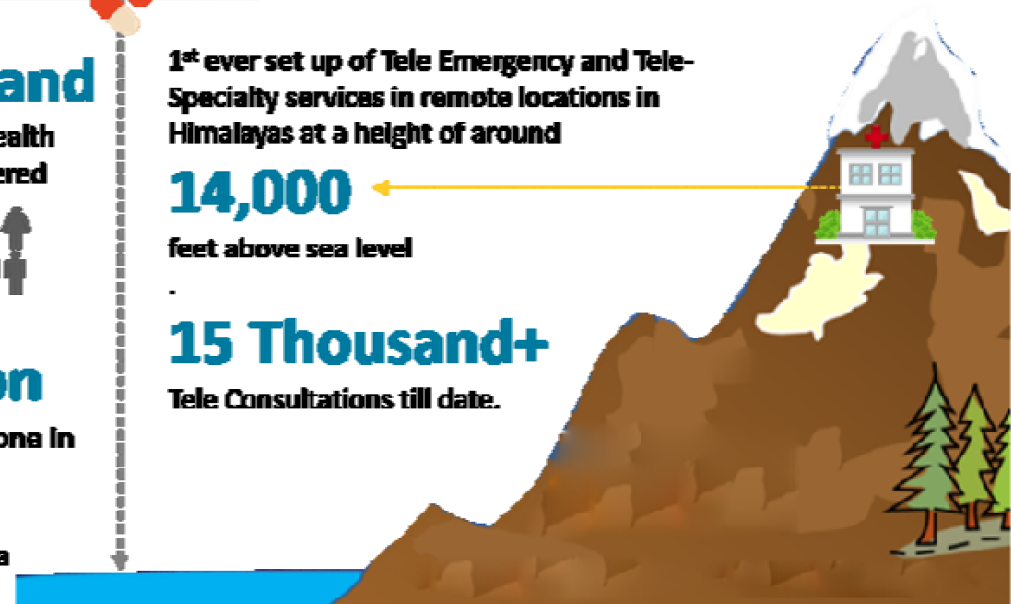

feet above sea level

**15 Thousand+**

Tele Consultations till date.

**19** Years of  
*Excellence*

## Remote Healthcare has built pan-India scale...

We are already working with GoAP for operating **183 eUPHCs** in Andhra Pradesh. One of the best PPP in healthcare.

Apollo has expanded its service footprint by providing **Tele-Ophthalmology** services at **115 centers** in collaboration with GoAP across the state.

Apollo's **Himachal Pradesh Tele Health Program** is providing the much needed Emergency, Specialty and super-specialty consultation services to locations at about **14,000 feet** above sea level in the Himalayan mountain range.

With this initiative Apollo Tele Health has made a major contribution into primary healthcare through Public Private Partnership and has touched about **2 million** lives with over **8 million** interactions in 2 years with footfall of **c.12000** on daily basis.

With this initiative Apollo Tele Health is checking refractive errors, capturing fundus images and providing spectacles to citizens. Total about **1 million** lives touched with **760 thousand** refraction checks, 215 thousand fundus checks and 577 thousand spectacles provided.

With this initiative Apollo Tele Health has stabilized over **1000 Emergency** patients & provided **15,000+ consults** in 4 years.

# Remote Healthcare has built pan-India scale...

Government of Uttar Pradesh has entrusted Apollo Tele Health for **Tele-Radiology** services in its **134 Community Health Centres(CHC)** and **Telemedicine** services in **120 CHCs**

Apollo Tele Health in association with **Govt of Jharkhand** has transformed **100** Primary Health Centres into **Digital Dispensaries** across the state to cater primary health care services.

Apollo Tele Health has activated tele-consultation service at **250 thousand Common Service Centre** at Gram Panchayats under project SEHAT through **Digital India** initiative.

Apollo TeleHealth looks forward to delivering close to **2000 Tele-reads** and **2400 Tele-consultations** on daily basis once both projects are implemented in next 60 days.

With its inauguration on 20<sup>th</sup> Feb 2019, on daily basis **2500 virtual consultations** are being delivered through state of art telemedicine setup.

On execution of this project, Apollo is actively involved in the **Digital India** initiative of Government of India providing consultations at less than **\$1.4(INR 100)** to rural India..

# Project Tuver – An Innovation in Last Mile Healthcare Delivery

## A Collaboration Between

University of  
Pittsburgh

**Tuver** : Remote village in the state of Gujarat in India with total population of 1500.

**Very less affordability towards health care.**

**Project Cost of \$350K for 2 years.**

**To create a sustainable Total Health Program.**
