THE BENGAL CHAMBER

Vol 18 | No.9

July 2024

from the desk of the
PRESIDENT

Dear Member,

30th July, 2024

BCC&i is delighted that many of its recommendations at the focused meeting with Hon'ble Finance Minister before the Budget have been considered in the 7th Budget Announcement. For example, the extension of customs duty exemption on raw material to manufacture Lithium Ion Cells used in EV Batteries as well as simplification of TDS/TCS provisions under Income Tax Act, etc.

With ₹ 1.52 lakh core outlay for agriculture coupled with a corpus of ₹ 2.66 lakh crores on Rural Development and Rural Infrastructure, credit guarantee schemes for MSMEs and basic custom duties reduction for a lot of important raw materials, the stress is firmly on empowering, "Atmanirbharata" and strengthening 'Make in India'.

A major announcement has been the abolition of Angel Tax which will positively impact investors. On the other end of the spectrum, agri supply chains and digitalization of agriculture are being promoted.

According to the economic survey, India's real GDP grew by 8.2 percent in FY24. The country's CAD (current account deficit) for the last financial year stood at 0.7 percent of GDP. The survey anticipates a decrease in inflation in the short term, attributed to

a normal monsoon. It also underscores the need for continuous efforts to boost employment, foster self-employment, and promote worker welfare.

BCC&i continues to lead in promoting trade, investment, and entrepreneurship. Recent flagship events such as the MSME Day Conclave and the 15th Edition of the Business IT Conclave (BITC) have significantly contributed to their respective sectors, as evidenced by the impressive post-event mainstream and social media activity. Another notable offering in the realm of international networking and cross-border collaboration for industry and academia was the Career and Employability Global Summit, held in Bangkok.

With your steadfast support, active participation, and valuable guidance, I am confident that we will continue to provide exceptional value to our constituents and the broader ecosystem.

With best wishes!

Sd/-
Gautam Ray
President

MEMBER'S NEWS CORNER

Welcome to the Bengal Chamber family! That's what we would like to convey to Hi Care Remedy Pvt Ltd, Automators Industrial Projects Pvt Ltd, Arogyam Medisoft Pvt Ltd and Banerjee Sarkar & Co whose applications for membership were tabled and approved on 29th June 2024.

MONTHLY PUBLICATION OF THE BENGAL CHAMBER OF COMMERCE AND INDUSTRY IN ASSOCIATION WITH JIS GROUP EDUCATIONAL INITIATIVES

Chief Patron

The Bengal Chamber of Commerce and Industry organized 'The Career and Employability Global Summit' held on Saturday, 22nd June 2024 at Ambassador Hotel, Bangkok, Thailand. It was an international networking platform for Industry, Academia and Entrepreneurs.

The Career and Employability Global Summit was a pioneering initiative aimed at bridging the gap between industry demands, academic curriculum, and entrepreneurial aspirations of India and Thailand. This summit promised to be a transformative event for professionals, academics, and entrepreneurs alike. The summit established a robust platform for collaboration between the participating nations, leveraging the strengths of these nations to enhance career opportunities and employability prospects for the next generation workforce. The summit established robust partnerships, fostered knowledge and MOU exchanges.

The objectives of the summit were to facilitate cross-border collaboration between industry and academia in India and Thailand, thereby identifying emerging skill requirements and employment opportunities in key sectors of the participating nations, fostered partnerships for joint research, technology transfer, and innovation between the stakeholders of the participating nations, enhanced the employability of the next generation workforce through industry-relevant education promoted cultural understanding and academic exchange between India and Thailand.

Key focus of the summit :

1. Industry Requirements Perspective Sharing Session by Participating Nations
2. Academia Introductory Session by Participating Nations
3. Industry Academia Collaboration (MOU Signing)
4. Scope and Opportunities for Students to study in other countries
5. Faculty Exchange and Student Exchange Collaborations

Speakers at this event were :

- Mr. Somesh Dasgupta, Conference Chairperson – The Career and Employability Global Summit, BCC&I and Whole Time Director, India Power Corporation Ltd.
- Mr. Arnab Chakraborty, Conference Co-Chairperson – The Career and Employability Global Summit, BCC&I and Vice President – HR, CESC Ltd.
- Mr. Abhijit Datta, Director of the Committee on South Asia, Middle East and Africa, Board of Trade of Thailand
- Mr. Khaga Raj Pandeya, First Secretary, Nepal Embassy, Bangkok
- Mr. Chuan Thakur, President, Indian Association of Thailand

- Mr. Abhishake De Sarkar, Managing Director, Advent Education Global Advisors Pvt. Ltd.
- Mr. "Paul Narula" Pornthep Sri Narula, Motivational Speaker, Real Estate and Hospitality Entrepreneur and Founder / CEO / Mentor, SYNCATE Group, RE/MAX Synergy, Paul Narula Academy, Omni Tower Syncate Suites, Thailand
- Mr. Jaidip Chatterjee, Co-Chairperson, People Management National Committee, BCC&I and CHRO, Reliance Group
- Dr. Nitin Kumar Tripathi, Vice President – Academic Affairs, Executive Director, Special Degree Programs, Professor, School of Engineering and Technology, Asian Institute of Technology, Thailand
- Professor (Dr.) Tirthankar Nag, Dean, International Relations, International Management Institute, Kolkata
- Mr. Rohit Sanyal, Manager, Marketing & Business Development, JIS University
- Dr. Rittin Abraham Kurien, Silpakorn University, Thailand
- Dr. Henry Chow, Mahidol University, Thailand
- Dr. Ranjit Gupta, Core Faculty, Sasin School of Management, Thailand
- Dr. Sapon Pornchokchai, Founder and President, Agency for Real Estate Affairs, Thailand
- Mr. S. Sinha Roy, Managing Director, Roy Global Co. Ltd., Thailand
- Dr. Vorrakorn Chamnanpaisarn, President, Justin (Thailand) Co. Ltd., Thailand
- Mr. Abhijit Chatterjee, Founder and Chairman & Managing Director, Ascensive Educare Limited
- Mr. Jonathan C. Nowell, CEO – Hospitality Solutions, TSA Consulting Asia Co. Ltd., Thailand
- Mr. Adrian Koh, Vice President - International Markets, Philips Carbon Black Limited - part of the RP Sanjiv Goenka Group
- Mr. Tanapong Rattanapornprom, Dhonburi Rajabhat University., Thailand

Speaking of the summit, there were slots for speaking opportunity for the Academia, Industry and Entrepreneurs who introduced themselves and shared their expectations with the august gathering who graced the event from India and Thailand. This was followed by MOU Signing between Academia and Industry.

By bridging the gap between industry demands and academic offerings, the summit aimed to empower the next generation of professionals with the skills and knowledge required to thrive in an increasingly interconnected and dynamic world. The Chamber will continue organizing similar summits to strengthen global business ecosystem.

MSME DAY 2024

27th June 2024,
The Park Hotel, Kolkata

The MSME Day 2024, held on 27th June at The Park Hotel, Kolkata, was a vibrant celebration of small and medium enterprises (SMEs) and their significant contributions to the economy. With the theme "Empowering Dreams, Empowering India," the event brought together industry leaders, government officials, and MSME representatives to share insights, network, and explore new opportunities. Inspirational Moments and Insights

One of the standout highlights was a thought-provoking remark by Dr. Jagat Shah, who said, "If goat dung and rotten potatoes can be exported, then any product can be exported." This statement encapsulated the theme of the event, emphasizing the limitless potential of MSMEs in the global market. Dr. Shah's session on "Export Like a Pro" provided valuable strategies for businesses looking to expand internationally. ONDC's Vision

27th June 2024,
The Park Hotel, Kolkata

MSME DAY 2024

The session with the Open Network for Digital Commerce (ONDC) ignited enthusiasm among participants. ONDC's vision to proliferate just like the Internet resonated deeply, encouraging many to explore the benefits of e-commerce onboarding. This session highlighted the transformative potential of digital platforms for MSMEs.

Key Highlights of the Day

Address by Shri Debashish Bandyopadhyay, Special Secretary, MSME & Textile, Government of West Bengal, set the tone for the day with an inspiring address.

- **Session with ONDC:** An insightful dive into e-commerce onboarding and its benefits for MSMEs.
- **Opportunities in Solar:** A session with Tata Power Renewable Energy exploring the future of solar power for businesses.
- **Regulatory Compliance Challenges and Solutions:** Mr. Vivek Jalan from Tax Connect Advisory Services LLP provided expert insights on navigating regulatory compliance.
- **Unlocking Access to Capital for MSMEs:** Financial experts from HDFC and Canara Bank shared strategies for securing capital.
- **Logistics Solutions:** Mr. Alok Bajoria, Director of Ganesh Complex, discussed innovative logistics solutions for MSMEs.

Panel Discussions

A notable panel discussion moderated by Mr. Sanjay Guha Thakurta on behalf of The Bengal Chamber of Commerce and Industry featured industry stalwarts from ONDC, LIC, Ganesh Industrial Parks, and Tata Power Renewables. The discussion covered diverse topics, including the future of commerce, insurance for micro-enterprises, re-industrialization in Bengal, and the roadmap for solar power expansion in Eastern India. The Bengal Chamber praised Mr. Guha Thakurta's moderation skills, which turned each panelist's insights into a compelling narrative, eliminating the need for formal presentations. Sri Vivek Jalan moderated a panel discussion with The Hon'ble SGST Commissioner of West Bengal - Shri D.P. Karnam, IAS, and The Hon'ble Joint Director (P&S), MSME, Government of West Bengal – Shri Rajkumar Middy. The discussion was centered mainly around further easing the businesses of MSME sellers on the platforms of e-commerce operators like ONDC, Amazon, Flipkart, etc. The exchange of ideas provided valuable insights into the future landscape of e-commerce for MSMEs, highlighting the importance of regulatory support and digital integration.

Gratitude to Our Esteemed Guests and Speakers

The success of MSME Day 2024 was made possible by the contributions of our esteemed guests and speakers:

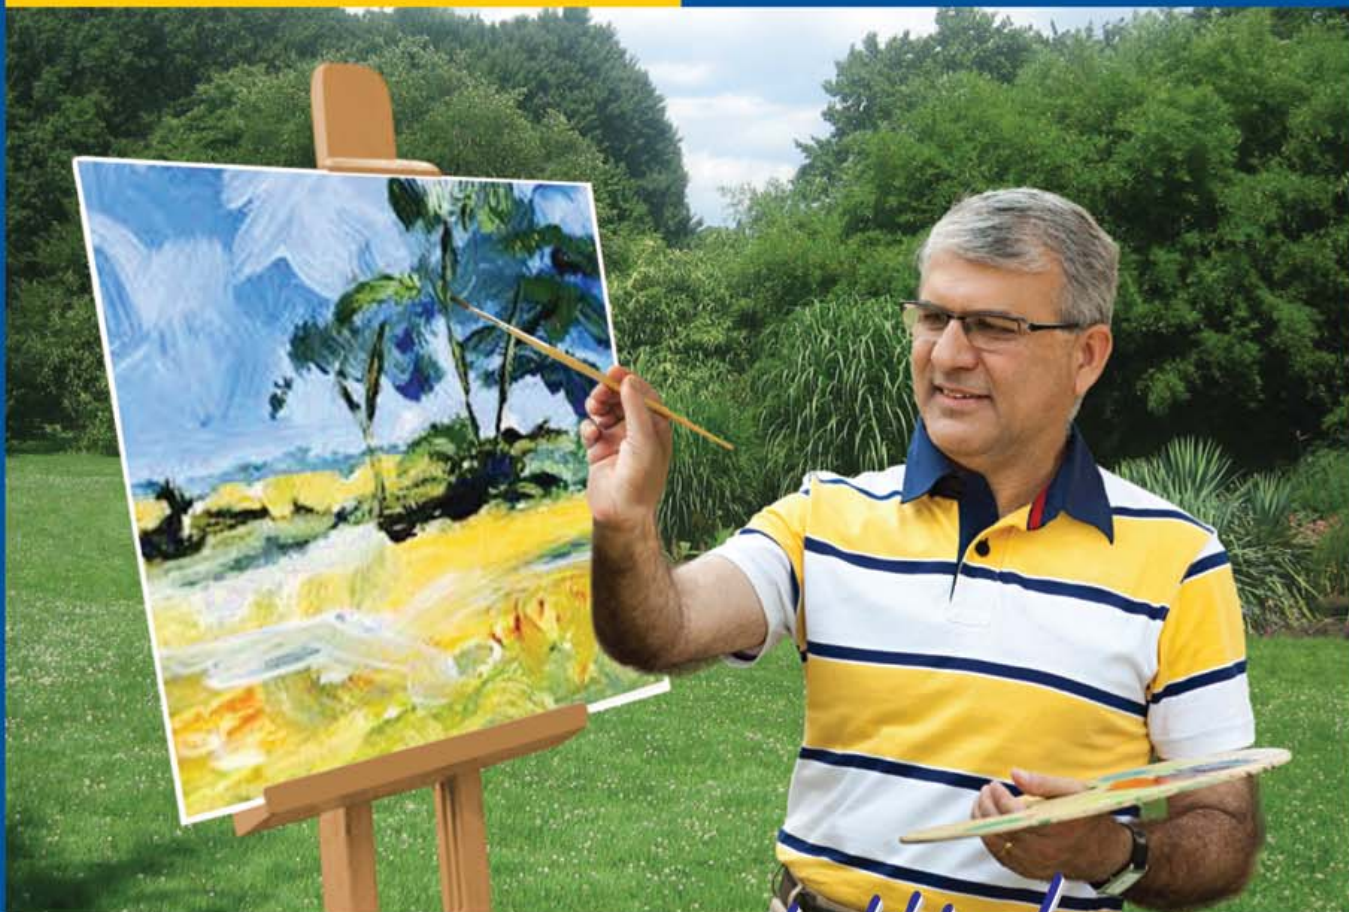

- Shri Arup Kumar, Chief General Manager, SIDBI
- Shri Ashok Bajoria, Chairman, Ganesh Complex
- Shri Dr. Jagat Shah, MBA, CMC, PhD., International Export Coach
- Shri TaraNathJha, Regional Head, Group Schemes, LIC of India
- Shri Debashish Bandyopadhyay, Special Secretary) MSME & Textile, Government of West Bengal
- Mr. Vivek Jalan, Partner, Tax Connect Advisory Services LLP
- Shri Devi Prasad Karnam, Commissioner, State Tax, West Bengal
- Mr. Soumyajit Ghosh, State Head - West Bengal, Tata Power Renewables Energy Limited
- Mr. Sanjay Guhathakurta, Partner, IBM India
- Mr. Niraj Gupta, DGM & RM ER, ECGC Ltd.
- Mr. Kaushik Gupta, Senior Vice President, HDFC Bank
- Mr. Indranil Dutta, Co-Chairperson Manufacturing and MSME Committee of The Bengal Chamber; CEO, Datre Corporation

Conclusion

MSME Day 2024 was a resounding success, adding significant value to all attendees. From insightful discussions to networking opportunities, the event truly embodied the spirit of "Empowering Dreams, Empowering India." We extend our heartfelt thanks to all participants and look forward to continuing this journey of growth and empowerment.

15TH EDITION OF BUSINESS IT CONCLAVE (BITC) 2024

The Bengal Chamber of Commerce and Industry presented the 15th edition of its annual signature Business IT Conclave (#BITC2024) on 28th June 2024, Friday at Taj City Centre, Kolkata. The Bengal Chamber has created BCC&I Sustainability Forum and has embarked on synergizing its initiatives in different verticals towards sustainable development goals of the United Nations. In this context the IT committee's offering was "Tech for Good" as the theme for this year's conclave which signifies the emerging technologies enabling and accelerating contributions towards the United Nations' Sustainable Development Goals (SDGs).

The Conclave had footfall of over 300 delegates and invitees bringing together stakeholders in IT businesses including Government, developers, service providers, user industries, academia, startups investors and others. The Conclave witnessed Bengal's accelerated importance in the digital map of the Country and across borders. Major IT players, from outside the State and also the homegrown ones, joined the Conclave showcasing cutting edge technologies and business opportunities around the same. The companies included Oracle, HPE, Savex Technologies, CtrIS Datacenters., British Telecom, CISCO, PricewaterhouseCoopers, Tenable, MSTC, Tally, Zensar, Arodek, Hoichoi, Sundew Solutions, Infinity,

HSBC, STPI and RT Network Solutions Pvt. Ltd. Japan External Trade Organization (JETRO), New Delhi brought a delegation of IT companies from India and Bangladesh. The delegation was led by **Mr. Takashi SUZUKI**, Chief Director General, JETRO New Delhi. Bangladesh Association for Software & Information Services (BASIS) brought a delegation from Bangladesh led by **Mr. Mostafizur Rahaman Sohel**, Director, BASIS and Director, CCBL (Central Counterparty Bangladesh Limited).

The Conclave featured seminar discussions, CXO roundtable, country sessions, exhibitions simultaneously. **Shri Babul Supriyo**, Hon'ble Minister-in-Charge, Department of Information Technology and Electronics, Government of West Bengal was the Chief Guest. **Shri Rajeev Kumar, IPS**, Additional Chief Secretary, Department of Information Technology & Electronics, Government of West Bengal was also present.

The opening session was graced by **Mr. Gautam Ray**, President, BCC&I and President - Corporate, RPSG Group; **Mr. Arnab Basu**, President Designate and Chairperson, IT Committee, BCC&I and Advisory Leader, PricewaterhouseCoopers Pvt Ltd; **Mr. Gopala Ramanan**, Vice President & JAPAC Controller, Oracle India; **Mr. Rajesh Dhar**, Senior Director, Sales Head-Industry Verticals, HPE India; **Mr. Vinod Karumampoyil**,

Director - Digital Transformation Office, CISCO; **Mr. Amit Singh**, Sr. Vice President, CtrlS Datacenters Ltd; **Mr Takashi SUZUKI**, The Chamber also felicitated the former leadership of the IT committee during the tenure of the BITC and the Founding Chairperson on the occasion of the milestone year. **Mr. Ravindra Chamaria**, Group Chairman, Infinity Infotech Parks Limited joined President and President Designate to do the honours.

Other Sessions included :

- Session: Role of Cyber Security in ESG presented by Tenable
- Fireside Chat Session : “Empowering Digital Transformation: Leveraging Technology for Impact” presented by CISCO
- Session : “Connected Enterprise to Execute Strategies at Pace and Scale” presented by Oracle India
- Session : Digital Sustainability: Driving Profit with Purpose presented by HPE and Savex
- Session : Digital innovations towards ‘Technology for Good’ – driven by experience + engineering + engagement continuum presented by Zensar Technologies
- Session : Panel Discussion on Gen AI, Digital Disruptions and Competitive Strategies
- Session : Sectoral Tech Adaptions
 - Track 1 : Session on Indo-Bangladesh Collaboration Opportunities in E-Commerce presented by MSTC
 - Track 2 : Benefits of Channel Automation presented by Tally Solutions Pvt Ltd.
 - Track 3 : “Security as a Design” - a mandatory paradigm shift for SMEs presented by Sundew Solutions
- Session : Enhancing opportunities in Kolkata presented by Infinity Infotech Parks Limited

The Parallel Sessions included :

- Session : Japan Country Session by JETRO
- Session : B2B Roundtable by CtrlS Datacentres Ltd.
- Session : Empowering Business with Innovation & Automation by Oracle.

Shri Babul Supriyo, Hon'ble Minister-in-Charge, Department of Information Technology, Government of West Bengal, delivered an inspiring speech focused on the region's potential to become a major IT hub in India.

He emphasized the government's strategic vision to make Kolkata the next significant **IT hub, capable of rivalling cities like Bangalore and Gurgaon**. He shared details about

the Bengal Silicon Valley, where 38 companies have already committed, with investments totalling around 25,000 crores and the potential to create 40,000 IT jobs. Highlighting the presence of industry giants such as Reliance, TCS, Infosys and L&T, he assured that Kolkata is already attracting the best in business.

He also mentioned the extensive infrastructure development, including **22 government IT parks and 60 private IT parks**, aiming to make the region more user and employee-friendly. He cited the government's stability and its impact on business confidence, ensuring that decisions are made swiftly to support enterprises.

Encouraging entrepreneurs to consider Kolkata, he pointed out the advantages of the planned smart city, New Town, which offers a conducive environment for business with ample space and modern amenities. He invited attendees to visit the Bengal Silicon Valley to witness the rapid development and the beautiful infrastructure firsthand.

His vision is to alleviate the overcrowding in traditional IT hubs by promoting Kolkata as an attractive alternative. He highlighted the city's potential to stop the brain drain and provide high-quality jobs for IT professionals. With a commitment to a 24-hour operational ministry, he assured unwavering support for businesses looking to invest in West Bengal. He concluded by expressing optimism about the future of Kolkata in the IT sector, urging attendees to believe in the city's potential and collaborate with the government to achieve shared aspirations. His speech was a call to action for investors and entrepreneurs to contribute to making Kolkata the next big thing in India's IT industry.

Shri Rajeev Kumar, IPS Additional Chief Secretary, Department of Information Technology & Electronics, Government of West Bengal, emphasized the importance of not only focusing on technology but also on goodness.. The Prisoner's Dilemma from game theory was introduced to illustrate the significance of cooperation. It was noted that while intelligence and smartness are often valued, cooperation plays a crucial role in human success.

The discussion extended to the realm of AI, particularly large language models (LLMs), with differing opinions on their potential to surpass human intelligence.

The current demographic advantage of India was acknowledged, with a call to leverage it effectively. The unique challenges faced by the Indian tech industry were discussed, including the need for improved logistics and aggregation systems.

Mr. Gopala Ramanan, Vice President & JAPAC Controller, Oracle India, addressed the role of finance in the IT industry, starting with an introduction to his background and experience. He explained how he worked with customers, primarily CFOs and CIOs, to understand their requirements and implement best practices into the Fusion system. He highlighted the challenges of the ever-changing business world, noting that businesses need systems that can sustain long-term and do more with less. He elaborated on how Oracle Fusion addresses these challenges with its comprehensive systems and innovative solutions. Over the past 20 years, Oracle has acquired over 150 companies, integrating their best-in-class industry verticals into the Fusion system. Mr. Ramanan mentioned notable acquisitions like PeopleSoft and described how these integrations have strengthened Oracle's ERP, supply chain management, human capital management, and customer experience applications.

Mr. Ramanan discussed the advancements in automation within Oracle's financial operations, such as global journal entries and cash predictiveness tools. He explained how automation has reduced manual intervention, improved efficiency, and enabled faster financial closing processes. He also highlighted the role of AI and machine learning in enhancing Oracle's systems, particularly in areas like digital assistants and predictive analysis.

He shared examples of how Oracle has streamlined processes, such as auto-reconciliation of bank statements and automated order processing, to reduce errors and improve efficiency. Mr. Ramanan emphasized Oracle's commitment to innovation and continuous improvement, noting the integration of acquired technologies into the Fusion system to benefit all customers.

Session : Role of Cyber Security in ESG

The discussion was led by :

Mr. Sudeep Das, Head SE, India & SAARC, Tenable India.

Mr. Sudeep Das, addressed the role of cyber security in Environmental Social Governance (ESG) initiatives, starting with an introduction to ESG basics and their importance to businesses. He highlighted examples of ESG practices, such as shifting to renewable energy and using reusable materials, and emphasized how these efforts contribute to environmental preservation and societal improvement. He underscored the need for businesses to understand their environmental impact to implement effective ESG programs. He connected ESG with business success, noting that ESG initiatives often lead to increased profitability and efficiency. He then transitioned to the role of cyber security,

arguing that data and technology are crucial for any ESG program's success, and thus, cyber security becomes imperative. He stressed on the need for visibility, risk understanding and communication in cyber security to protect digital assets and ensure the smooth operation of ESG programs. Mr. Das concluded by asserting that cyber security should be integral to any business initiative involving technology and data, reinforcing that secure, well-governed systems are foundational to the success of ESG and other business programs.

Fireside Chat Session : "Empowering Digital Transformation: Leveraging Technology for Impact"

The discussions were led by :

- **Mr. Raghavan Kasturirangan**, Principal System Architect, CISCO.
- **Mr. Partha Sengupta**, Senior Vice President, ITC Infotech & Head of IT Shared Services, ITC Limited.

Mr. Kasturirangan highlighted that the network industry is undergoing significant changes due to the growing adoption of artificial intelligence and the shift towards diverse network conditions post-COVID.

He noted three major trends: enhanced customer experience, integrated security and automation. Customer experience now emphasizes seamless network access and intelligent issue resolution, while security has shifted to a zero-trust model. Automation and orchestration are becoming critical as networks grow in complexity, enabling rapid deployment and reducing error rates.

Mr. Sengupta elaborated on the evolving landscape, where data is increasingly scattered across multiple data centers due to cloud and SaaS adoption, leading to a reliance on internet access over traditional MPLS networks. He pointed out the significance of 5G in revolutionizing connectivity, although its adoption in corporate segments remains limited due to cost and endpoint support issues.

The discussion then turned to the role of generative AI in network management. Mr. Kasturirangan explained how AI is being used to automate troubleshooting, providing network administrators with real-time insights and diagnostics to quickly resolve issues.

Session : "Connected Enterprise to Execute Strategies at Pace and Scale"

The discussion was led by :

- **Mr. Rajesh Goel**, Solution Consulting Director, Oracle India.

Mr. Rajesh Goel, delivered a comprehensive overview of the challenges posed by disparate systems within organizations and the transformative potential of Oracle ERP (Enterprise Resource Planning) Cloud. He highlighted how fragmented applications across HR, finance and procurement often lead to operational inefficiencies and hinder growth. These inefficiencies include complex processes for reconciliation and reporting due to data scattered across multiple platforms. Such challenges not only impede agility but also pose barriers to scaling operations effectively.

Mr. Goel mentioned Oracle ERP Cloud as a solution that integrates these disparate systems into a unified platform. This integration allows for streamlined processes such as procure-to-pay and hire-to-retain, facilitating smoother operations and faster decision-making. Moreover, Oracle's ERP Cloud offers real-time insights and analytics, enabling organizations to make informed decisions promptly. He highlighted Oracle's commitment to innovation, with regular updates and enhancements delivered through Oracle Cloud Infrastructure (OCI), ensuring that businesses can stay ahead in a rapidly evolving digital landscape.

Session : Digital Sustainability : Driving Profit with Purpose.

- **Mr. Manish Ranjan**, ESG Practitioner, India Geo Sustainability SWAT lead, Hewlett Packard Enterprise.
- **Mr. Partha Dasgupta**, DGM Sales & Operations, Savex Technologies.

In this session the importance of linking digital and sustainable transformation for future business success was highlighted. The challenges technology leaders face in this process and emphasized the need for strategic questions about maintaining innovation and building a sustainable future was also acknowledged. HP offers sustainable IT solutions from Edge to Cloud, aiding organizations in modernizing their IT strategies through pathways like HP Green Lake. These solutions focus on enhancing operational efficiency, reducing energy consumption and costs, and ensuring full asset life cycle management. HP's long history in sustainability was emphasized, including their early adoption of CSR and commitment to environmental responsibility since the 1940s. Mr. Dasgupta detailed HP's multiple solutions for sustainability tailored to the Indian market, such as frameworks for climate disclosure and reporting. He underscored HP's unique selling proposition (USP) of providing comprehensive ESG solutions, including training, tools for identifying sustainable partners and achieving Net Zero targets. Additionally, HP's commitment to sustainability extends across their product lifecycle,

from manufacturing with sustainable energy to recycling and upcycling. The HP Green Lake platform was highlighted as a key solution for reducing over-provisioning and lowering operational costs, making sustainability both achievable and profitable. Finally, Mr. Dasgupta addressed the needs of MSMEs, explaining that HP offers affordable ESG solutions tailored to different sectors, ensuring even small and medium-sized enterprises can benefit from sustainable practices.

Session : Digital innovations towards "Technology for Good" - driven by experience + engineering + engagement continuum.

- **Mr. Kaushik Chatterjee**, Global Delivery Head - BFSI, Healthcare & Life sciences, Zensar Technologies Ltd.
- **Mr. Animesh Mukherjee**, Global Head - Industry Solutions Group, Insurance, Zensar Technologies Ltd.

The session focused on the main drivers behind the current wave of digital disruption and highlighted changes in consumer behaviour. People now prefer the convenience of online shopping, personalized experiences, and digital-first services. The younger, digitally native generation also demands digital experiences. Additionally, growing concerns about sustainability are forcing companies to adopt eco-friendly solutions.

These trends are transforming industries across the board. For example, over 20% of global retail sales now happen online through platforms like Amazon, which has a \$2.1 trillion market capitalization. Similarly, over 40% of TV consumption is now through streaming services like Netflix. The rise of ride-sharing apps like Uber, which does 28 million trips per day, is another example of digital disruption.

To succeed in this era of digital disruption, companies need to focus on several key areas. First, they must design digital experiences that cater to diverse user preferences, rather than just digitizing existing processes. Second, they need to leverage data and analytics to personalize offerings. Third, they should leverage cloud and micro services architectures to rapidly innovate. Finally, driving enterprise-wide digital transformation, with buy-in from all departments, is critical for success.

Session : Panel Discussion on Gen AI, Digital Disruptions and Competitive Strategies.

- **Mr. Mainak Bhattacharya**, Technology Head-SAP, arodek.

28th June 2024,
Taj City Centre, Kolkata

15TH EDITION OF BUSINESS IT CONCLAVE (BITC) 2024

- **Mr. Ramyanshu Datta**, Ph.D, Head of Product Generative AI on Amazon Sage Maker and GM AWS Human-in-Loop (HIL) AI Services (virtually from USA).
- **Mr. Anil Nama**, CIO, CtrlS Datacenters Ltd.
- **Mr. Alope Majumder**, VP-Technology, Hoichoi.
- **Mr. Rahul Guha**, Director, Oracle India.
- **Mr. Nitin Raj**, Partner - Data Sciences - AI/ML/Gen AI and Optimization, PwC India.
- **Mr. Jaideep S Kalra**, Director & Region Head, Business Banking, North & East India, HSBC Bank Ltd.
- Session Moderated by: **Mr. Partha Sengupta**, Senior Vice President, ITC Infotech & Head of IT Shared Services, ITC Limited

The focus of the discussion was on the transformative era of technological innovation, where AI and generative models are reshaping industries at an unprecedented pace. This discussion aimed to offer valuable insights on leveraging these technologies to enhance efficiency and drive innovation in organizations.

The discussion delved into the rapid integration of generative AI into various sectors, highlighting both excitement and ethical concerns. Panellists provide insights into real-world applications and responsible usage.

Mr. Kalra discussed how AI and the 4D methodology are revolutionizing the banking sector.

Mr. Majumder talked about how AI is driving the digital and content creation revolution, particularly in Bengali media.

Mr. Guha explained how embedding generative AI into products enhances business processes, emphasizing built-in AI capabilities.

Mr. Nama, highlighted the importance of digital infrastructure and AI operations in democratizing AI initiatives.

Mr. Raj He emphasized the importance of understanding both the "what" and "how" of democratization. He highlighted that large issues like supply chain and ESG involve vast unstructured data, which generative AI now combines with structured data, offering new perspectives. The rapid success of Chat GPT, with 100 million users in two months, exemplifies democratization—no longer do users need to be data scientists to leverage technology. Generative AI compresses global information into one accessible file, empowering everyone to build their models and businesses, marking unprecedented democratization.

Mr. Kalra discussed how banks have adopted AI for financial intelligence and process automation. Generative AI promises improvements in productivity and customer experience, but data confidentiality and compliance are critical. Internally, banks create data lakes for easy access and processing, while externally, they partner with service providers to help clients leverage AI for business insights, all while maintaining data privacy.

During the audience Q&A, Mr. Guha addressed data security with generative AI, ensuring that Oracle does not access or use customer data for training or inferencing, keeping data private and secure. On the issue of hallucinations in AI models, prompt engineering was recommended to make questions more specific and contextual, with human oversight being crucial. Another point raised was the use of other AI techniques beyond large language models (LLMs), such as smaller, more targeted models tailored to specific business needs, to minimize computational and environmental costs.

The panellists closed by emphasizing the importance of balancing democratization with data governance, security, and human-centric adoption processes. They stressed starting small, ensuring data privacy, and gradually scaling up AI initiatives across the organization.

Session : *Sectoral Tech Adaptations* :

Track 1 :

Session on Indo-Bangladesh Collaboration Opportunities in E-Commerce presented by MSTC.

- **Shri Dibyendu Roy**, HOD-eCommerce, MSTC Limited (topic to be decided) in discussion with **Mr. Mostafizur Rahaman Sohel**, Director, BASIS (Bangladesh Association for Software & Information Services) and Director, CCBL (Central Counterparty Bangladesh Limited).
- Moderated by: **Dr. Chiranjib Bhattacharya**, *Chairperson*, IT Entrepreneurs and eCommerce Committee, BCC&I; Co-Chairperson, IT Committee, BCC&I and Chief Executive Officer & Director, Wizertech Informatics Pvt. Ltd.

In the session, it was conveyed that businesses today face increasing challenges due to digital transformation and economic volatility. AeroD, a global professional services organization, was introduced as a solution, offering 360° IT and management solutions through various products to help businesses improve their operations.

Mr. Roy provided an overview of MSTC, a central

government PSU under the Ministry of Steel, which specializes in e-commerce services like e-auction, e-procurement, and custom software development. It was highlighted that MSTC has been involved in various sectors, including mining, telecom, power, and agriculture.

Mr. Sohel explained BASIS's role as the apex body for software and information services in Bangladesh, focusing on policy making, market development, and capacity building. He emphasized the collaboration opportunities with MSTC and the benefits of leveraging existing solutions rather than redeveloping them.

The discussion concluded with a focus on the future steps for collaboration. It was mentioned that MSTC and BASIS are exploring opportunities to work together, with expectations for formal outcomes and progress to be made within the year. The session ended with an invitation for questions from the audience, indicating ongoing optimism for successful collaboration.

Track 2 :

Benefits of Channel Automation : presented by Tally Solutions Pvt Ltd.

- **Mr. Sidharth Prashar**, Deputy General Manager - Enterprise Sales, Tally Solutions Pvt Ltd.

In the session, it was shared that Tally Solutions, established 40 years ago, had significantly transformed operations for small and medium enterprises by moving from manual to computerized systems. The narrative focused on how Tally had evolved to address challenges faced by businesses, including financial and inventory management. About six years ago, Tally had expanded into the government sector and enterprise solutions, aiming to assist large enterprises and their channel partners with stock and sales visibility.

The benefits of Tally's solutions, such as automated order processing and price control, were discussed. Tally had been instrumental in helping various industries, including cement, tire, and fast-moving consumer goods. Emphasis was placed on the integration of Tally with other systems through APIs and its recent transition to a cloud-based platform with AWS for improved efficiency.

The session highlighted Tally's role in enabling data accessibility and real-time insights for both channel partners and principal companies. It was mentioned that Tally was involved in pilot projects exploring new solutions and would soon introduce its first AI product to further enhance business insights. The founder's quote was shared, stating

that there are businesses using Tally and those that will use Tally in the future.

Track 3 :

"Security as a Design" - a mandatory paradigm shift for SMEs.

- **Mr. Charly Graf**, CISO and CIO, Sundew Solutions (from Switzerland).

Mr. Charly Graf, emphasized the importance of data privacy and governance, noting that smaller organizations often overlook these aspects, assuming they are only relevant for larger entities or regulated industries. Mr. Graf advocated for proactive measures in cyber security, highlighting that any action is better than inaction.

He discussed key compliance obligations under India's Digital Personal Data Protection Act of 2023, which includes requirements for explicit consent, data breach notifications, and data localization. He also compared these with European standards and emphasized the importance of integrating privacy and security into organizational design.

A Q&A session followed, during which Mr. Graf addressed questions on sustainability solutions and the availability of open-source software for corporate responsibility. He acknowledged the challenges and commercial aspects of such tools and advocated for a conceptual shift towards valuing and protecting data as a critical asset. The session concluded with a formal acknowledgment of Mr. Graf's contributions.

Session: Enhancing opportunities of Kolkata

- **Mr. Amit Srivastava**, Director and Site Lead, BT Group.
- **Mr. Chandrakirti Roy**, Senior Director - Administration and Facilities, Teleperformance.
- **Mr. Santanu Ghosh**, Head East, Cushman & Wakefield.
- Session Moderated by: **Mr. Aninda Das**, Vice President- Marketing, Infinity Infotech Parks Limited.

The session's focus was on enhancing opportunities in Kolkata, emphasizing the city's potential as a major IT hub. Despite some clichés, the discussion highlighted Kolkata's strengths: a vibrant talent pool, state-of-the-art infrastructure, and a favorable cost of living. The optimism for Kolkata as the next big IT destination was palpable, with predictions of significant growth in the coming decade.

Mr. Shantanu Ghosh, provided an overview of Kolkata's real estate market. He noted a growth from 1 billion square feet to an anticipated 1.67 million square feet by the end of 2024. Despite comparing favorably with other cities

28th June 2024,
Taj City Centre, Kolkata

15TH EDITION OF BUSINESS IT CONCLAVE (BITC) 2024

like Pune and Chennai, Kolkata still faces challenges, including perception issues and a shortage of Global Capability Centers (GCCs). He emphasized the need to change perceptions and leverage the city's strengths.

Mr. Chandrakirti Roy highlighted the company's significant presence in Kolkata with over 7,000 employees. He discussed the challenges of overcoming negative perceptions and emphasized that Kolkata remains an attractive location due to its talent pool and supportive government initiatives. Tele performance plans to continue its expansion, reflecting confidence in the city's growth.

Mr. Amit Srivastava discussed the company's growth in Kolkata from 3,000 to 4,000 employees. He noted Kolkata's competitive advantages, including talent, cost efficiency,

and property costs. However, he called for more proactive efforts from both corporate and government to improve the city's image and capitalize on the growth potential. Amit emphasized the need for policy development and enhanced outreach to attract more GCCs.

The discussion also touched upon the exit of major companies like Tata from Kolkata, which has left a significant impact. The need for an image makeover and collaboration between the Chamber of Commerce and real estate sectors was highlighted as essential to address these challenges.

The session concluded with a call for collaboration and continued efforts to showcase Kolkata's strengths and potential.

Parallel Session on Empowering Business with Innovation & Automation by Oracle

Tenable B2B Lunch on the sidelines of BITC 2024

B2B Roundtable by CtrlS Datacenters Ltd- "Key trends and technologies impacting the future of datacenter industry"

When people connect, there's no limit to the good they can do.

About us:

BT (British Telecommunications plc). We're one of the world's leading communications services companies helping to connect communities and businesses in over 180 countries.

We are dedicated to fostering a more connected world, driving advancements in communication technologies while prioritising sustainability and digital inclusion.

The solutions we provide are integral to modern life. Our purpose is as simple as it is ambitious: We Connect For Good. There are no limits to what people can do when they connect. And as technology changes our world, connections are becoming even more important to everyday life.

Today, that's truer than ever. The connections we make are helping solve the world's biggest challenges such as the global pandemic, climate change and cyber security. Through the power of technology, we're supporting customers to live, work and play together better.

In the heart of Kolkata, where tradition meets modernity, BT Kolkata stands as a beacon of innovation, driving the city's digital transformation journey. With a commitment to excellence and a vision for the future, BT Kolkata is not just a company; it's a partner in progress for businesses and individuals alike.

Connectivity that fuels growth

In today's fast-paced world, connectivity is the lifeline of business. BT Kolkata understands this imperative and offers cutting-edge solutions that ensure seamless communication and collaboration.

Security in a digital age

As we embrace the digital era, security remains a paramount concern. BT Kolkata's cybersecurity services provide the assurance that your data is protected with the most advanced security measures, safeguarding your business against evolving threats.

Innovation for a smarter tomorrow

At BT Kolkata, innovation is at the core of what we do. We invest in research and development to bring you the latest in IoT, cloud computing, and AI, paving the way for a smarter, more efficient future.

Sustainability: Our Commitment to the Planet

Understanding our responsibility towards the environment, BT Kolkata is dedicated to sustainable practices. We're not just transforming businesses; we're doing it in a way that contributes to a greener planet.

Join Us on the Journey

As we continue to set new benchmarks in technology and service, we invite you to join us on this exciting journey. With BT Kolkata, the future is not just bright; it's brilliant.

EV fleet: future-ready sustainable commute

Mitti Café: run by people with disabilities

Contributing to a greener tomorrow

Bengal Chamber of Commerce and Industry

Highlights from the 15th Edition Business IT Conclave (BITC2024)

The event centered around "Tech for Good" brought together technology experts, startups, policymakers, and industry leaders to discuss how emerging technologies can support the development of sustainable solutions for social and environmental challenges, driving positive change and creating a better future for all. It was a privilege to share insights on sustainability as a catalyst for business and to rethink it as a strategic opportunity. The discussion highlighted key points on maintaining an innovative advantage, building a sustainable future in a resource-intensive, hybrid IT world, understanding the true environmental impact of workloads from edge to cloud, and finding expertise to guide intelligent lifecycle decisions.

We had two sessions from Hewlett Packard Enterprise which were on Digital Sustainability & profitability.

Hewlett Packard Enterprise is among the most sustainable companies globally and our commitment to sustainability is unwavering. The company is on a mission to become a net-zero enterprise across its entire value chain. This goal is driven by the belief that technology should benefit not just businesses, but also people and the planet, truly being a ForceforGood.

HPE has introduced several solutions in this field, spanning from Sustainable IT—encompassing energy-efficient IT products and the design and implementation of sustainable data centers—to IT for Sustainability, where we provide various ESG solutions such as reporting and reducing carbon footprint.

HPE's unique perspective on sustainability is rooted in years of dedicated efforts to rethink IT strategies for a greener future. By focusing on brand differentiation and optimization, HPE aims to free up resources for digital transformation and modernizing businesses.

Here are the highlights of the session on "Accelerating Sustainability with Digital Initiatives" presented by Mr. Rajesh Dhar, Senior Director, Sales Head-Industry Verticals, HPE India.

Accelerating sustainability with digital initiatives involves leveraging technology to enhance environmental, social, and economic outcomes. Digital tools like big data, artificial intelligence, and the Internet of Things (IoT) can optimize resource use, reduce waste, and lower carbon footprints. For instance, smart grids improve energy efficiency, while predictive analytics enhance supply chain sustainability by minimizing emissions and waste. Additionally, digital platforms can foster transparency and accountability, encouraging sustainable practices across industries. By integrating these technologies, businesses can not only achieve regulatory compliance but also innovate towards a more sustainable future, driving both economic growth and environmental stewardship.

Delighted to share the highlights from "Digital Sustainability: Driving Profit with Purpose," presented by Hewlett Packard Enterprise (HPE) and Savex Technologies Pvt. Ltd. at the 15th Edition of the Business IT Conclave (#BITC2024).

This session featured insightful presentation cum discussion from:

- Mr. Manish Ranjan, ESG Practitioner, India Geo Sustainability SWAT Lead, Hewlett Packard Enterprise
- Mr. Partha Dasgupta, DGM Sales & Operations, Savex Technologies Pvt. Ltd.

1. Innovating for a Sustainable Future in a Hybrid IT World

- Emphasized the importance of integrating sustainable practices within hybrid IT infrastructures.
- Highlighted cutting-edge technologies that facilitate a balance between operational efficiency and environmental responsibility.

2. Understanding the Environmental Impact of Workloads from Edge to Cloud

- Discussed the environmental footprint of data processing and storage.
- Provided strategies for minimizing energy consumption and optimizing resource utilization across different IT environments.

3. Making Intelligent Lifecycle Decisions to Drive Brand Differentiation and Optimization

- Offered practical advice on how businesses can make informed decisions to enhance their brand through sustainable practices.

11th July 2024,
The Bengal Chamber premises

INTERACTIVE SESSION WITH MS. ALESSANDRA CARREON, COMMISSIONER FOR THE MICHIGAN STATE PUBLIC SERVICE COMMISSION

The Bengal Chamber of Commerce and Industry (BCC&I) organized an Interactive Session with Ms. Alessandra Carreon, Commissioner for the Michigan State Public Service Commission on 11th July 2024, at the Chamber premises.

Ms. Alessandra Carreon is the Commissioner for the Michigan State Public Service Commission. Previously, she was a manager in carbon-free transportation for RMI, a nonprofit working to secure a clean energy transition. She led projects focused on affordable and accessible electric vehicle adoption and charging. Her work aims to accelerate global transportation electrification while ensuring equity across the battery value chain. She formerly led Ford Motor Company's Responsible Material Sourcing team and spent years in environmental, social, and governance roles.

From the U.S. Consulate General Kolkata, **Mr. Anutosh Biswas**, Public Engagement Coordinator and **Ms. Sucharita Bhattacharjee**, Public Engagement Specialist accompanied Ms.Carreon.

The Session focussed on the future of Electric Vehicle and its impact on the environment. The deliberations included thoughtful ideas and insights to better understand the current state and future potential of this important technology. The

transition to electric vehicles is a critical step in addressing climate change and creating a more sustainable future.

The Session also focussed on:

- India-U.S. Trade Relations and the Future of Electrified Transportation.
- India-US Trade / Bilateral Trade.
- India-US Economic Relation.
- India-US Trade Treaty.
- United States in the EV Space.
- Michigan in the EV Space.
- India in the EV Space.
- West Bengal in the EV Space.

The Session was presided by **Mr. Gautam Ray**, President, BCC&I and President- Corporate, RPSG Group and **Mr. Subhodip Ghosh**, Director General, BCC&I. It was also graced by Industry experts like **Mr. Alok Kumar Ghosh**, GM(OS), Corporate, WBPDC, **Mr. Jayanta Chakraborty**, Consultant, Indofil Industries Limited; **Mr. Manohar Bethapudi**, Founder & CEO, Uneverse Mobility; **Mr. Rajesh Jain**, Vice President - Finance & Resource Mobilisation, SWACH Environment Private Limited and **Mr. Surajit Majumdar**, Senior General Manager to MD's Office, Corporate, Exide Industries Limited.

Session in progress

Presentation of Memento to Ms. Alessandra Carreon, Commissioner for the Michigan State Public Service Commission by Mr. Gautam Ray, President, BCC&I

From L-R: Mr. Subhodip Ghosh, Director General, BCC&I, Mr. Surajit Majumdar, Senior General Manager to MD's Office, Corporate, Exide Industries Limited, Mr. Jayanta Chakraborty, Consultant, Indofil Industries Limited, Mr. Gautam Ray, President, BCC&I, Mr. Alok Kumar Ghosh, GM(OS), Corporate, WBPDC, Ms. Alessandra Carreon, Commissioner for the Michigan State Public Service Commission, Mr. Rajesh Jain, Vice President - Finance & Resource Mobilisation, SWACH Environment Private Limited, Mr. Manohar Bethapudi, Founder & CEO, Uneverse Mobility and Ms. Sucharita Bhattacharjee, Public Engagement Specialist, U.S. Consulate General Kolkata

PROGRAMME

ASANSOL ENGINEERING COLLEGE

“Free Guidance for WBJEE Choice Filling” by Asansol Engineering College

Asansol Engineering College is providing free guidance/support for WBJEE Choice Filling / Choice Locking at our college campus. Interested WBJEE aspirants are welcome.

Timing of free guidance for choice filling:

Wed – Fri : 4pm to 7pm
Sat-Sun : 11am – 2pm

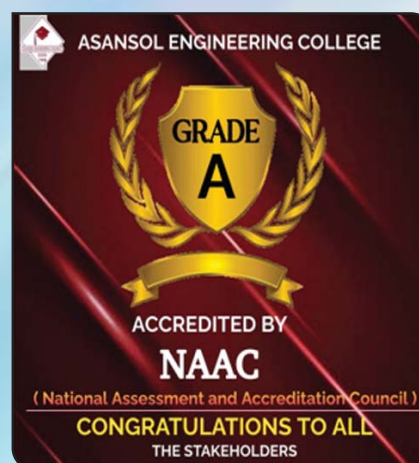

Achievement: Asansol Engineering College “NAAC- Grade A” accredited

Asansol Engineering College is extremely delighted to share with you that we have been accredited by NAAC with A Grade.

It is a moment to cherish and an achievement to be proud of.

AEC extends sincere congratulations and heartfelt thanks to all the stakeholders of AEC for their continuous support.

Fare Well Ceremony of 2024 pass out students of Asansol Engineering College

Fare Well Ceremony of 2024 pass out students of Asansol Engineering College in different dates in June 2024.

The journey through the different program has been nothing short of transformative. They have delved into the depths of algorithms,

explored the complexities of data structures, and navigated the intricacies of software development. But beyond the technical knowledge, they have gained something far more valuable – resilience, critical thinking, and the ability to solve problems creatively.

Let's embrace the challenges and opportunities ahead with the same enthusiasm and determination that brought us here today. Thanks to them and above all AEC for shaping their future!!!

AEC participation in “JIS EDUCATION EXPO” organized by JIS Group

Asansol Engineering College participated in the Education Interface Career Fair “JIS EDUCATION EXPO 2024” organized by JIS group from 15th to 17th June 2024 at Netaji Indoor Stadium, Kolkata. We addressed many queries from the aspirants and their parents regarding different courses offered by AEC

ABACUS INSTITUTE OF ENGINEERING & MANAGEMENT

Farewell Program Conducted for AIEM Computer Science and Engineering Final Year Students: 18/06/2024

The Department of Computer Science and Engineering (CSE) at the Abacus Institute of Engineering and Management (AIEM) organized a heartfelt farewell ceremony, "Never-Say-Good Bye," on June 18, 2024, at 5:00 PM in the Seminar Hall. The event was held with great enthusiasm and a blend of nostalgia to mark the end of an era for the graduating B.Tech CSE students and the beginning of their new journey. The ceremony commenced with a floral welcome, where all B.Tech CSE final year students, departmental faculties, and the Training and Placement Officer (TPO) of AIEM were greeted with red roses. The event was coordinated by the CSE final year in-charges, led by Mr. Avishek Gupta, Assistant Professor of CSE at AIEM. The Head of the CSE Department, along with all faculty members, wished the final year students good luck for their future endeavors. The faculty members expressed their hope that the students would continue to excel and secure prestigious positions in their forthcoming challenges.

Dr. Pritish Ghosh, TPO of AIEM, delivered motivational speeches, encouraging the students to strive for excellence. Many of the placed students shared their experiences during interviews, including group discussions, aptitude tests, verbal reasoning, and HR sessions, providing valuable insights for their juniors. As a token of love and appreciation, the college organized a memento distribution ceremony, where each graduating student received a keepsake. This gesture highlighted the college's recognition of the students' hard work and achievements. The ceremony concluded with refreshments for students, faculty, and staff, which were arranged meticulously, creating an environment of joy and enthusiasm. The event was memorable, leaving a lasting impression on everyone involved. The farewell ceremony was not just a goodbye but a celebration of the students' accomplishments and the start of their new journey as proud alumni of AIEM.

Farewell Program Conducted for AIEM Electrical Engineering Final Year Students: 18/06/2024

On June 18, 2024, the Department of Electrical Engineering at AIEM hosted a touching farewell program for its final year students, following their examinations. The event was meticulously planned to be interactive and emotionally significant, marking the end of a crucial phase in the students' academic journeys. The ceremony began with a warm welcome from the faculty members, setting a heartfelt tone for the occasion. Graduating students then delivered a series of poignant speeches, sharing their experiences, cherished memories, and reflections from their four years at AIEM. These speeches celebrated their academic successes, personal growth, and the deep bonds they had formed. To maintain strong connections with the alumni, students filled out registration and feedback forms,

providing valuable insights for future improvements in the department's academic and extracurricular activities. During the event, 60 students were honored, each receiving a token of appreciation. A group photo was taken to commemorate the occasion, serving as a lasting reminder of their time at AIEM and the relationships they built. In a gesture of gratitude, the college presented each student with a gift, acknowledging their efforts and contributions over the years. The program concluded with a thank-you speech, expressing appreciation to everyone who helped make the farewell event a success.

The farewell program was more than just a goodbye; it was a celebration of the students' achievements and the start of their new journey as proud alumni of AIEM.

NEWS FROM THE JIS GROUP

Farewell Program Conducted for AIEM Civil Engineering Final Year Students: 20/06/2024

The Department of Civil Engineering at AIEM organized a heartfelt farewell program for the final year students following their examinations on June 20, 2024. Meticulous planning made the event interactive and emotionally resonant, marking the end of a significant chapter in the students' academic lives. The ceremony commenced with faculty members warmly welcoming the students. This was followed by a series of touching speeches from the graduating students, who shared their experiences, memories, and reflections from their four years at the institute. These speeches highlighted their academic achievements, personal growth, and the bonds they formed. To foster ongoing connections with the alumni, students completed registration and feedback forms. These forms provided

valuable insights for enhancing the department's academic and extracurricular programs. During the event, 62 students were honored. Each received a token of appreciation, and a group photo was taken to capture the moment, serving as a lasting reminder of their time at AIEM and the relationships they built. As a gesture of gratitude, the college presented each student with a gift, acknowledging their efforts and contributions over the years. The program concluded with a thank-you speech, expressing gratitude to everyone who contributed to making the farewell event a success.

The farewell program was not just a goodbye but a celebration of the students' achievements and the beginning of their new journey as proud alumni of AIEM.

Farewell Program Conducted for AIEM Electronics & Communication Engineering Final Year Students: 20/06/2024

On June 20, 2024, the Department of Electronics & Communication Engineering at AIEM organized a memorable farewell program for its final year students. The event, held after the students' examinations, was carefully planned to be both interactive and emotionally significant, marking the end of an important chapter in the students' academic lives. The ceremony commenced with a warm welcome from the faculty members, setting a heartfelt tone for the occasion. This was followed by a series of touching speeches delivered by the graduating students. They shared their experiences, cherished memories, and reflections from their four years at AIEM, celebrating their academic successes, personal growth, and the strong bonds they had formed. To foster ongoing connections with the alumni, the graduating students filled out registration and

feedback forms. These forms provided valuable insights for future improvements in the department's academic and extracurricular programs, ensuring that the experiences of current and future students can be enhanced. During the event, 14 students were honored, each receiving a token of appreciation. A group photo was taken to capture the moment, serving as a lasting reminder of their time at AIEM and the relationships they built. In a gesture of gratitude, the college presented each student with a gift, acknowledging their efforts and contributions over the years. This act of appreciation highlighted the institute's recognition of the students' hard work and dedication. The program concluded with a thank-you speech, expressing gratitude to everyone who contributed to making the farewell event a success. This speech underscored the collective effort that went into organizing the event and the deep appreciation felt by all involved.

Farewell Program Conducted for AIEM Mechanical Engineering Final Year Students: 28/06/2024

On June 28, 2024, at 1:10 PM, the Department of Mechanical Engineering (ME) at the Abacus Institute of Engineering and Management (AIEM) hosted a poignant farewell ceremony in the Seminar Hall. The event, filled with enthusiasm and nostalgia, marked the end of an era for the graduating B.Tech ME students and the beginning of their new journeys. The ceremony began with a warm floral welcome, where graduating students, departmental faculties, and the Training and Placement Officer (TPO) of AIEM were presented with red roses. The Head of the ME Department, alongside faculty members, extended their best wishes to the final year students, expressing hope that they would continue to excel and achieve prestigious positions in their future endeavors. Dr. Pritish Ghosh, TPO of AIEM, delivered an inspiring speech, motivating the students

to strive for excellence. Several placed students shared their interview experiences, including group discussions, aptitude tests, verbal reasoning, and HR sessions, offering valuable insights for their juniors. In recognition of the students' hard work and achievements, the college organized a memento distribution ceremony, presenting each graduating student with a keepsake. This gesture underscored the college's appreciation for their efforts. The event concluded with meticulously arranged refreshments for students, faculty, and staff, fostering an atmosphere of joy and camaraderie. The farewell ceremony was more than a mere goodbye; it was a celebration of the students' accomplishments and the commencement of their new journey as proud alumni of AIEM. The memorable event left a lasting impression on everyone involved, highlighting the strong bond between the students and the institution.

"ARPEGGIO 2024: A Celebration of College Culture and Talent": 28/06/2024

On June 28, 2024, Abacus Institute of Engineering & Management proudly hosted ARPEGGIO 2024, powered by Idea-o-Meter and supported by IEI. This annual engineering fest provided a vibrant platform for students to showcase their innovative ideas and technological skills through activities ranging from coding competitions to musical performances. The event featured an array of cultural activities and competitions, including solo and group dance performances in classical, contemporary, and folk styles. The high energy and enthusiasm of these performances were highlights of the fest. Additionally, the Web Development Hackathon saw

fierce competition among budding programmers, with the top three developers receiving trophies and certificates for their exceptional skills. The prize distribution ceremony, a key event, honored winners across various categories. Prizes were presented by the Heads of Departments and a distinguished alumnus, recognizing the students' outstanding achievements. Special accolades for placed students inspired others to pursue their career goals with determination.

The fest culminated in a vibrant DJ night with "Delete Band," where students danced to the latest hits, keeping the energy high into the night. ARPEGGIO 2024 was a memorable celebration of student talent and community spirit, reflecting AIEM's commitment to fostering an engaging learning environment.

Two Days Workshop on FUNDAMENTALS OF COMPUTER: 10th and 11th July, 2024

Abacus Institute of Engineering & Management successfully conducted a two-day workshop, "Session III on Fundamentals of Computers," on July 10-11, 2024. The workshop catered to students from 10th, 11th, and 12th grades from local schools, offering them a comprehensive introduction to computer basics while fostering unity among schools. The event, spanning 12 hours, was led by Mrs. Sohini Banerjee, Mr. Avishek Gupta, Mrs. Sudeshna Das, Ms. Arpita Shome, Mr. Somnath Manna, and Mr. Supratim Ghosh from AIEM.

A total of 24 students participated, engaging in a range of topics from computer hardware and software to practical applications. The Key Objectives were familiarize students with computer system components, highlight the importance of computer literacy, introduce various software types and their functions, demonstrate practical computer applications. The workshop concluded with a vote of thanks, and participants received certificates and AIEM T-shirts. This initiative provided students with a solid foundation in computer science, encouraging them to further explore technology-related fields.

GREATER KOLKATA COLLEGE OF ENGINEERING AND MANAGEMENT, BARUIPUR

The Department of Civil Engineering of Greater Kolkata College of Engineering and Management organized a heartfelt farewell program for the 2024 pass-out Civil Engineering students on June 7, 2024, at the Seminar Hall of our college. A Farewell Speech was delivered

Greater Kolkata College of Engineering and Management celebrated National Statistics Day on 28th June, 2024 at Jaynagar Institution (Jaynagar, Jaynagar Mazilpur, West Bengal 743395.). The core purpose of the event was to make students aware of the basics of Statistics and to pay tribute to Prof. Prasanta Chandra Mahalanobis. The event was scheduled at 3pm. The first half of the event included a

lecture by Mr. Subhasis Saha, Asst Prof. of Mathematics, Dept of BS & HU, GKCEM. The second part of the event included a short quiz for the 65 students present in the interactive sessions. The event was successfully organized by IIC- GKCEM, Mathematics Club and NDLI club.

GURU NANAK INSTITUTE OF TECHNOLOGY

1. One-Day Webinar on "Prompt Engineering" @CSE @GNIT

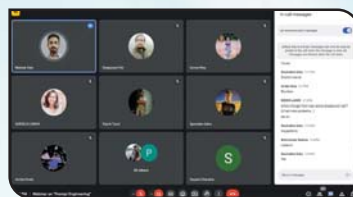

The Department of Computer Science and Engineering of Guru Nanak Institute of Technology organized a one-day webinar on "Prompt Engineering" on 16th June 2024. The webinar focused on the concept and application of prompt engineering in modern software development and AI interaction.

Mr. Mainak Deb, Senior Project Manager at Sikharthy Infotech Pvt. Ltd., and Mr. Deepayan Pal, Founder & Director of Sikharthy Infotech Pvt. Ltd. delivered an engaging and interactive presentation on the various aspects of prompt engineering. They emphasized the importance of this field in natural language processing and AI, sharing current information and real-world examples to help students understand the practical applications and best practices in the industry. They shared their professional experiences and talked about the importance of prompt engineering in modern technology.

They gave several examples of implementations and discussed case studies.

More than 80 students attended the webinar. The participants actively engaged with the speakers, gaining numerous ideas and perspectives on prompt engineering and its relevance in today's technological landscape. After completing the presentation, both speakers interacted directly with the students and appreciated their various queries related to the topic.

The webinar effectively fulfilled its objective of providing clear guidance on the field of prompt engineering. Students left with a better understanding of the topic, equipped to explore further studies and career opportunities in AI and software development.

2. One-Day Seminar on "Lean Start-up & Minimum Viable Product/Business" @IT @IQAC @GNIT

The Department of Information Technology at Guru Nanak Institute of Technology, in collaboration with Ardent Tech Pvt Ltd and the IQAC cell of GNIT, organized a one-day seminar on "Lean Start-up & Minimum Viable Product/Business." The seminar was meticulously coordinated by Suparna Karmakar, Head of the Department of IT.

The event commenced with an inaugural speech by Prof. (Dr.) Swarup Kumar Mitra, Principal, GNIT setting an inspiring tone for the day.

The keynote speaker, Rajmohon De Sarkar, Founder of Ardent Tech Pvt Ltd, then delivered an insightful session that provided an in-depth overview of the "Lean Start-up & Minimum Viable Product/Business framework" and its critical role in strategic management and entrepreneurship.

The seminar's main focus areas included:

Testing the Business Idea: Emphasizing the importance of quickly and cost-effectively assessing the feasibility and potential of a business idea in the market.

NEWS FROM THE JIS GROUP

Validating Assumptions: Highlighting the development and launch of an MVP/MVB to validate key assumptions about the target market, customer needs, and value proposition.

Gathering Feedback: Focusing on obtaining early feedback from real customers to understand their needs and preferences, using this feedback to iterate and improve the product or business model.

Reducing Waste: Aiming to minimize resource wastage by building only the essential features or components required to test the concept and gather feedback.

Accelerating Learning: Encouraging rapid experimentation to quickly and effectively learn what works and what doesn't in the market, enabling informed decision-making and iterative improvements.

The seminar was attended by faculty members, staff, and students, all of whom were highly motivated to understand the current trends in start-up and business development. Suparna Karmakar, HOD of IT, served as the convener of the program, ensuring seamless coordination of the event with support from the faculty members and Junior Technical Assistants (JTA) of the Department of Information Technology.

The event concluded with a vote of thanks, acknowledging the contributions of all participants and organizers. The seminar not only provided valuable insights into the lean start-up methodology and MVP/MVB frameworks but also fostered a spirit of innovation

3. MoU Signing Ceremony with Sikhharthi Infotech Private Limited @CSE @GNIT

In June 2024, the Department of Computer Science and Engineering @GNIT signed a Memorandum of Understanding (MOU) with Sikhharthi Infotech Private Limited, Kolkata. The signing ceremony was graced by the presence of Mr. Deepayan Pal, Founder & Director of Sikhharthi Infotech Pvt. Ltd., Mrs. Shilpi Ghoshal (Pal), Founder & Director of Sikhharthi Infotech Pvt. Ltd., Prof. (Dr.) Swarup Kumar Mitra, Principal of GNIT, Dr. Suman Bhattacharya, Associate Professor and Head of the CSE Department at GNIT, as well as Mr. Moloy Dhar, Dr. Srabani Biswas, Dr. Ipsita Saha, and Ms. Sayani Chandra, Assistant Professors in the CSE Department at GNIT.

Sikhharthi Infotech is a renowned software development and skill development company specializing in website and mobile app development, digital marketing services, and offering a robust training division. Their services extend to various prestigious institutions, including Techno India Group, JIS Group, and numerous other colleges across West Bengal. Sikhharthi Infotech also provides valuable student internship opportunities, enabling freshers to enhance their skills to a professional level comparable to that of a developer.

The MOU aligns with GNIT's policy of fostering industry collaboration to enrich the knowledge base, research activities, and professional skills of students and faculty in modern technologies and recent trends within the field of Computer Science and Engineering. This partnership aims to bridge the gap between academic learning and industry demands, ensuring that students are well-equipped with practical skills and industry-relevant knowledge.

Prof. (Dr.) Swarup Kumar Mitra emphasized the significance of such collaborations in his address, highlighting how these partnerships contribute to the holistic development of students by providing them with real-world exposure and practical experience. Mr. Deepayan Pal and Mrs. Shilpi Ghoshal (Pal) expressed their enthusiasm for the collaboration, underscoring Sikhharthi Infotech's commitment to nurturing young talent and fostering a culture of innovation and excellence.

Dr. Suman Bhattacharya, along with the other faculty members present, reiterated the department's dedication to leveraging this MOU to enhance the curriculum and research initiatives, thus ensuring that students are adept in cutting-edge technologies and prepared for the dynamic landscape of the tech industry.

This MOU signifies a pivotal step towards achieving excellence in education and research in the field of Computer Science and Engineering at GNIT. The collaboration with Sikhharthi Infotech is expected to bring numerous opportunities for students and faculty alike, fostering a synergistic relationship that will drive innovation and skill development.

4. Industry Visit : Parle Biscuits Pvt. Ltd., Dhulagarh @ECS @GNIT

The Department of Electronics & Computer Science at Guru Nanak Institute of Technology organized an industry visit to Parle Biscuits Pvt. Ltd., Dhulagarh, in June 2024. This educational excursion aimed to provide students with a firsthand understanding of industrial operations, bridging the gap between academic knowledge and real-world industry practices.

Aim of the Industrial Visit:

1. To interact with industry personnel and understand industrial procedures.
2. To make students aware of the prerequisites for entering a company.
3. To experience the working environment and visualize various important departments within the industry.
4. To facilitate interaction between students and industry professionals.
5. To prepare students for career path selection in different industry departments.

Upon arrival and obtaining entry passes, the group was welcomed by Mr. Subhadeep Acharjee, the School Coordinator. The visit began with a briefing session and a 30-minute animation video that provided an overview of the company's structure and operations.

Under the guidance of Mr. Kousik Deria (Electrical In-charge) and Mr. Subhadeep Acharjee, the group toured the site. They were shown the use of Programmable Logic Controllers (PLCs), controllers, and other machinery involved in the production process. The detailed explanation of how biscuits are made and the role of industrial automation was particularly enlightening.

The factory premises were extensive, showcasing a blend of traditional and modern manufacturing techniques. Key insights gathered during the visit include:

1. **Production Lines:** Parle operates multiple production lines for various product categories such as glucose biscuits, cream biscuits, and specialty biscuits. Each line is equipped with advanced machinery for mixing, baking, packaging, and quality control.
2. **Quality Control Measures:** Stringent quality control measures are implemented throughout the production process. From raw material inspection to final product packaging, Parle emphasizes consistency and adherence to high-quality standards.
3. **Automation and Technology:** The facility demonstrated significant automation, enhancing efficiency and precision in manufacturing. Automated conveyor belts, robotic arms for packaging, and

computerized systems for batch monitoring were prominently featured.

4. **Hygiene and Safety:** The factory maintained high standards of hygiene and safety protocols. Employees wore appropriate protective gear, and the entire premises adhered to strict cleanliness norms.

The visit to Parle Products Pvt. Ltd. provided comprehensive insights into the operations of one of India's leading biscuit manufacturers. Key takeaways include:

1. **Operational Excellence:** Parle's manufacturing facility showcased a blend of traditional craftsmanship and modern technology, emphasizing quality at every production stage.
2. **Technological Integration:** The use of advanced automation and technology enhances production efficiency and ensures quality control, reflecting Parle's commitment to meeting consumer expectations.
3. **Distribution and Market Reach:** Parle's extensive distribution network ensures its products are widely available across diverse markets, supported by efficient logistics and robust supply chain management.
4. **Sustainability Initiatives:** Parle's proactive approach towards sustainability includes initiatives to reduce environmental impact and support community development, reflecting a broader corporate responsibility ethos.
5. **Future Prospects:** With strong brand equity and continuous innovation, Parle is well-positioned to capitalize on evolving consumer preferences. The company's strategic focus on quality and customer satisfaction bodes well for its future growth in the competitive FMCG sector.
