

from the desk of the
PRESIDENT

Dear Member,

29th November, 2022

In a VUCA world, we don't know what we don't know! The only option is to navigate through uncharted waters. What is somewhat encouraging is that given the situation, the economy is rallying with resilience being at the strategic core.

The Federal Reserve recently announced its fourth consecutive 75 basis point interest rate hike amidst possibility of a looming recession in the US. The Fed's rate hike, it is argued, will be felt across economies and perhaps cause more pressure on the Rupee. However, RBI's regular and timely interventions and open market operations and vigil have stabilized the Rupee relatively more than many other currencies. India's retail inflation still trends lower than that of US and Europe. We are hopeful of riding this wave out!

On the climate change front, at the recent COP27 deliberations, nearly 200 countries struck a deal to establish a new fund for climate "loss and damage" - it will give money to the nations hit hardest by the effects of climate change. But the fine print remains to be read and adaptability to Climate Change in sync with inclusive and empowering development in tandem with technology that can be scaled up efficiently is what is the need of the day.

The Chamber has commenced organising its flagship summits and

conclaves across India. The cities have been chosen keeping in perspective the theme of the summits/conclaves. For example, the Banking and Financial Summit was organised in Mumbai, the financial capital of the country. Likewise, Telangana is perceived as the prototype State for leveraging technology in agricultural space. Hence, the SmartAgri Summit 2022 will be hosted in Hyderabad. Bhubaneswar is the destination for Mineral, Mining and Metal Conclave and a mega initiative "Wellness Warriors" will be organised in Delhi to salute the Armed Forces along with the ESG awards also scheduled in Delhi.

As we have come out of "Work From Home" and "Connecting Virtually" phase of life, we have resumed breaking the boundaries. The Bengal Chamber has already organised a first-ever Health Fair in Bangladesh and taken an Education Delegation to Singapore a couple of months back. The Chamber plans to take a Business Delegation to Bangladesh and a Manufacturing Delegation to some African countries in the coming year.

With regards and best wishes,

Sd/-
Subir Chakraborty
President

**MEMBER'S NEWS
CORNER**

Welcome to the Bengal Chamber family! That's what we would like to convey to Ascensive Educare Limited and Sandeep Lakhota & Associates whose applications for membership were tabled and approved by the Managing Committee at its meeting on 28th October 2022.

The Chamber was privileged to have the august presence of Dr. Shashi Panja, Hon'ble Minister-in-Charge, Department of Industry, Commerce and Enterprises, Government of West Bengal, at its last Managing Committee meeting and the opportunity to felicitate her on the occasion. Dr. Panja holds charge of three Departments namely, Industries, Commerce & Enterprises, Public Enterprises and Industrial Reconstruction and Women & Child Development & Social Welfare.

In his welcome address, The President, Mr. Subir Chakraborty briefly apprised Dr. Panja about the activities of The Chamber and areas of its expertise to assist the Government. He mentioned that The Chamber would be pleased to work with the Government of West Bengal in organizing the various sessions and B2B meets in BGBS 2023 and undertake sectoral partnership agreements. A letter and a presentation with details of The Chamber's areas of expertise and activities was handed over to Dr. Panja by the President.

Dr. Panja mentioned that she was happy to be at The Chamber interacting with captains of industries here in Bengal who would speak about the positives of Bengal and could apprise her on the negatives as well. She said that she had made herself accessible and had been speaking with concerned people at various forums ever since she had taken charge of Departments of Industry, Commerce & Enterprises and Public Enterprises & Industrial Reconstruction this year. There had been papers and suggestions from various Chambers and her attention had been drawn towards issues and problems which she was finding exciting and interesting. She was keen to know more about The Bengal Chamber's detailed work for the State on inland waterways and last-mile connectivity and projects The Chamber had undertaken for the World Bank and also for the Transport Department of the Government of West Bengal in this realm. A brief synopsis was provided and one of the reports on Roll-On Roll-Off vessels prepared with a focus on decongesting the land bridges and city of Kolkata was handed over to her.

She further mentioned that the Chief Minister of the State had always been supportive of growth and development of large and MSME Sector in the State and was going ahead with creation of accessible platforms for the same. Recently a phone number had been launched towards "Industry Grievance Redressal". The CM was always wanting to find out about the bottlenecks for Industry in the State.

Dr. Panja felt that while the State might have lost out in some cases, there have been no stoppage of work or militant kind of trade unionism of late. Industrial lands had been identified and there were various industrial parks with Government lands. Private lands were also available. New Policies had

come concerning tea tourism, ethanol production and promotion policy and on environment, alternative fuel, and other policies aimed at sustainability. Policies concerning forests, ports, coal blocks, rehab, mining and excavation etc were being worked out and would be declared gradually. Large, Medium and Micro Sectors were looked after jointly with co-operation between several Departments. There was a Standing Committee to ensure better co-ordination with Ministers and Secretaries on board along with the Hon'ble Chief Minister.

She felt that there was a positive approach and outlook towards industry, trade and commerce and necessary infrastructure had been built with this in mind. She spoke about the Biswa Bangla Convention Centre and the Biswa Bangla Prangan near Science City. She also spoke about decentralization of industrial parks at the district levels, the developmental work at Jungle Mahal and dedicated freight corridor, about work to be done with neighbouring States as well as the role that Kolkata and the State could play as a gateway to South East Asia.

Stating that she looked forward to further inputs and interactions with The Chamber and to a coherent approach in addressing all issues discussed, Dr. Panja mentioned that she would like to hear a critique as well along with the suggestions given.

The President thanked Dr. Panja for her powerful and enlightening address. He felt that from the various initiatives being taken by the Chief Minister and the Minister-in-Charge, Department of Industry, Commerce & Enterprises, the simple message that was conveyed was "Bengal Means Business" and at this juncture it was important that business and Government should work together so that they are able to project West Bengal as a preferred destination for business not only in the country but also globally in the future.

The Session with Dr. Panja was followed by a very engaging round of discussions with several Members raising queries and coming up with suggestions while thanking the Hon'ble Minister for already having taking a few positive steps in some areas like cross-border trade etc which had yielded results.

The Hon'ble Minister felt that many of the suggestions made by Members required to be looked into in-depth. The President agreed that The Chamber would make a compendium of the suggestions made and submit the same to the Minister.

The Meeting was concluded with the President Designate, Mr. Gautam Ray delivering a formal Vote of Thanks.

ONLINE ENTREPRENEURSHIP QUIZ

30th October 2022,
Virtual Platform

Today, many visionary students aspire to run their own business, mainly because they seek autonomy, financial security, and vocational flexibility. Entrepreneurship allows students to learn more than just their chosen field of study, and creates an interdisciplinary environment to work and develop in. The networks and friendships which develop help students to become better connected once they leave university, and help prepare them for long term success. To celebrate this spirit of new making India, The Entrepreneurs' Committee of The Bengal Chamber of Commerce and Industry organized "Online Entrepreneurship Quiz" for school students of Class XI and XII on 30th October 2022 from 11:00 a.m. to 11:15 a.m. through online mode.

Students from all across India participated in this exciting quiz. Questions covered topics around entrepreneurship in India, global entrepreneurship, future of entrepreneurship, startups and unicorns, etc. and it was a fun for everyone who participated.

Candidates appeared in the competition online from all over India. The entire contest was in MCQ format through an online portal.

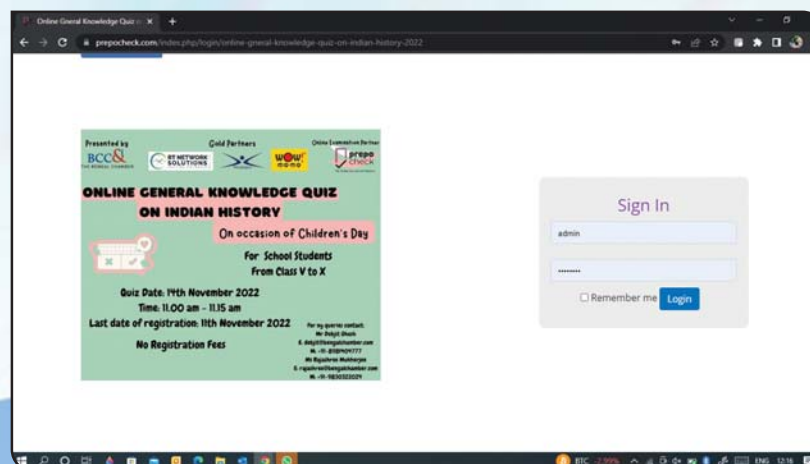

ONLINE GENERAL KNOWLEDGE QUIZ

14th November 2022,
Virtual Platform

Children's Day is celebrated across India to raise awareness about the rights, education, and welfare of children. It is celebrated on 14th November every year on the birthday of the First Prime Minister of India, Pandit Jawaharlal Nehru, who was known to have been fond of children. To celebrate the Children's Day, The Entrepreneurs' Committee of The Bengal Chamber of Commerce and Industry organized an Online General Knowledge Quiz on Indian History for school students on 14th November 2022 from 11:00 a.m. to 11:15 a.m. through online mode.

Students from Class V to Class X from all across India participated in this exciting quiz. Questions covered topics around general knowledge on Indian History and it was a fun for everyone who participated.

Candidates appeared in the competition online from all over India. The entire contest was in MCQ format through an online portal.

THE BENGAL CHAMBER ANNUAL EDUCATION CONCLAVE – THE CONVERGING EDUCATIONAL HORIZON

19th November 2022,
Fairfield by Marriott, New Town, Kolkata

The Education Committee of The Bengal Chamber conducted the 5th Annual Education Conclave - The Converging Educational Horizon on 19th November 2022, in Fairfield by Marriott. Mr. Shekhar Mehta, President, Rotary International 21-22, was the Opening Keynote Speaker. Dr. Subhas Sarkar, Hon'ble Minister of State for Education, Govt. of India, addressed the participants virtually. Padma Shri Professor Dr. Ajoy Kumar Ray, Director, JIS Institute of Advanced Studies and Research, Kolkata set the context of the Conclave while the Guest of Honour was Padma Bhushan Dr. Bikash Sinha, Former Director - Saha Institute of Nuclear Physics & Former Chairman - NIT Durgapur, & Homi Bhabha Chair Professor, Department of Atomic Energy, Variable Energy Cyclotron Centre.

The National Education Policy talks about the Reforms in School Curricula and Pedagogy, which aims for holistic development of learners by equipping them with the key 21st century skills, reduction in curricular content to enhance essential learning and critical thinking and greater focus on experiential learning. It also talks about the fact that Vocational education will start in schools from the 6th grade, and will include internships. The Annual Education Conclave 2022 of The Chamber was based on this aspect.

The various panel discussions were extremely interesting. The conclave had panel discussions on How Are Schools/Colleges/Universities Preparing Children To Explore The New Horizons Of Education?, Different Perspectives on the New Horizons of Education, Role of Skilling in the New Educational Horizon and The Importance Of The Mental Wellbeing Of Students Through Meditation And Motivation. The speakers in the first panel were Professor (Dr.) Indranil Sen Gupta, Vice Chancellor, JIS University, Kolkata, Ms. Bratati Bhattacharya,

Secretary General & CEO, Shri Shikshayatan Foundation & Shri Shikshayatan School, Kolkata, Ms. Rupkatha Sarkar, Principal, La Martiniere For Girls and Ms. Joyita Majumder, Principal, Ruby Park Public School, Kolkata. This session was chaired by Mr. Sumit Das Gupta, Managing Director, Allcap Communications, Kolkata.

The speakers in the second panel were Prof. (Dr.) Ananda Mitra, Professor, Department of Communication, Wake Forest University, Prof. (Dr.) Pallab Banerji, Professor, Material Science Department, IIT Kharagpur, Dr. Jisnu Basu, Faculty Member, Saha Institute of Nuclear Physics. This session was chaired by Prof. Dr. Anupam Basu, Director, NIT Durgapur.

The next panel on skilling was chaired by Prof. Dr. Dhruvjayoti Chattopadhyay, Vice Chancellor, SNU and the speakers were Prof. Dr. Anupam Basu, Director, NIT Durgapur, Prof. Saikat Maitra, Vice Chancellor, Maulana Abul Kalam Azad University of Technology of West Bengal and Mr. Abhijit Chatterjee, Chairman & CEO, Ascensive Educare.

The last session which was on Mental Health was attended by students from various schools, colleges and universities. The students had an opportunity to interact with the esteemed panelists of the session Swami Sarvottamananda Maharaj, Vice Chancellor, Ramakrishna Mission Vivekananda Educational and Research Institute, Dr. Rima Mukherjee, Senior Consultant Psychiatrist, Kolkata and Prof. Shuvendu Majumder, Principal, Calcutta Business School. This session was chaired by Prof Dr. Suman Mukerjee, Director General, The Bhawanipur Education Society College, Kolkata. Overall, it was a very successful conclave attended by a lot of participants. The conclave had extremely good media coverage as well.

24th November 2022,
Golden Retreat, Haldia

6TH EDITION OF DISCUSSION FORUM ON ECOLOGICAL
SUSTAINABILITY IN THE INDUSTRIAL REGION OF HALDIA

The Bengal Chamber Commerce and Industry organizes Discussion Forum on Ecological Sustainability in the Industrial Region- Haldia, Siliguri and Durgapur. The 6th Edition of Discussion Forum on Ecological Sustainability in the Industrial Region of Haldia was held at Golden Retreat, Haldia on 24th November 2022.

It was a forum for the industrial stakeholders of Haldia to showcase their best practices and introduce to them latest technologies and business practices for industrial development in sync with ecological sustainability.

It is said that 39% or more of West Bengal's investments were in Haldia. Every year, 5% addition is made to the workforce. However, climate change may have a deep impact on Haldia. Though Haldia is not connected with Sundarbans directly, the decreasing mangroves in Sundarbans due to natural calamity like cyclones may make Haldia exposed to more damaging impacts of cyclones.

This year, the sessions were focused on:

- Session on Stakeholders sharing best practices
- Workshop on Energy Conservation with senior experts from Jadavpur University and IISWBM

The discussions featured on:-

- Sewage of the Haldia Township
- Salination of river water
- Commitments from the industry towards sustainability
- Need for industry-academia collaborations for innovations to address climate change
- Need for more community partnerships for initiatives with social impact

Mr. Sourav Daspatnaik, Managing Director, Swach Environment Pvt Ltd and Special Invitee of the Managing Committee, The Bengal Chamber of Commerce and Industry made formal welcoming. Mr. Chandra Shekhar Prasad, COO, Indorama India Private Limited was present along with Mr. I Daniel Raj, Deputy General Manager – HSE, Indian Oil Corporation Limited; Mr. T K Pan, Chief Operation Manager, Exide Industries Ltd; Mr. Susobhan Patra, General Manager, Haldia Energy Ltd.; Ms. Jhunarani Behera, Senior Manager-HSE, Indian Oil Corporation Limited, Haldia Refinery; Mr. Subhashish Pal, Deputy General Manager, Technology, Haldia Petro Chemical Ltd. Dr. Sudipta De, Professor, Mechanical Engineering, Department, Jadavpur University presented his views on Energy conservation: origin, evolution and its relevance to Indian industry and Dr. Arindam Dutta, Energy Consultant & Coordinator of Energy Management Department, Indian Institute of Social Welfare & Business Management addressed us on Energy Conservation Policy Framework and Impact: India's Perspective.

Industry bodies like Indian Oil Corporation Ltd. - Haldia Refinery, Exide Industries Ltd, Indorama India Pvt Ltd., Haldia Energy Ltd., Haldia Petrochemicals Ltd., Electrosteel Castings Limited, Adani Wilmar Limited, TATA Steel Downstream Products Limited, Hiranmaye Energy limited and Haldia Water Services Pvt Ltd. were present to express their views on sustainable development of the city.

Participants were from almost all the major industries in Haldia and also from Kolkata and Jamshedpur.

(L-R) Mr. T K Pan, Chief Operation Manager, Exide Industries; Ms. Jhunarani Behera, Senior Manager-HSE, Indian Oil Corporation Limited, Haldia Refinery; Mr. Subhashish Pal, Deputy General Manager, Technology, Haldia Petro Chemical Ltd and Mr. Susobhan Patra, General Manager, Haldia Energy Lt

Institution's Innovation Council of GKCEM has organized a workshop on "Holistic Learning by STEM" on 11th November, 2022 from 12:00 pm onwards. Headmaster/Headmistress, Teachers and students from 12 schools have participated in the event.

JIS COLLEGE OF ENGINEERING

Manobik - Clothes Distribution Program Organised by Department of Electrical Engineering

Department of Electrical engineering of JIS College of Engineering had taken a small initiative to put a smile on the struggling faces of street children and backward families in Kalyani and surrounding areas by distributing clothes through the program MANOBIK. The students, faculty and staff members distributed the garments,

chocolates, dry foods and goodies at the Kalyani and surrounding area on 20th October 2022. Almost 160 numbers of people were associated with that place and received the garments. Dr. Papun Biswas, HOD of the department of Electrical Engineering appreciated all the members of the EE department for this initiative and encouraged them to continue such programs. We look to inculcate the same practices among our students. We hope that our students will take this lesson forward and do greater good for society.

Report on Bijoya Sommelani

On 29th October 2022, ART AND LITERATURE CLUB, JISCE in association with the Department of BSHU celebrated Bijoya. The programme was conceptualized by IpsitaChakrabarty, Asst. Prof. Dept. of Humanities and the co-ordinator of ART AND LITERATURE

CLUB. The aim of the programme was to celebrate the various ways in which Durga Puja is celebrated in diverse cultures in various parts of India. Many students participated in the programme wholeheartedly. Also, several faculties joined the programme and enjoyed themselves thoroughly. The event ended with a vote of thanks by the coordinator of the ART AND LITERATURE CLUB.

Report on Industrial Visit at Jeerat Substation, organized by dept. of Electrical Engineering

We are delighted to let you know that the Electrical Engineering Department scheduled a visit to the Jeerat Substation - New - 765/400 kV for the department's students on 21st October 2022. Power Grid Corporation of India is in charge of running the Jeerat Substation - New - 765/400 kV project, a new substation. The substation has a 3,000 MVA capacity.

NEWS FROM THE JIS GROUP

In accordance with a schedule set by the Electrical Engineering Department, students took part in the substation visit at the Jeerat Substation - New - 765/400 kV project. Mr. Tarak Biswas, Site Manager, of Power Grid Corporation of India, gave the talk. Future applications for the

discussed technologies are enormous, hence they should be vigorously pursued. The students went to the substation to learn about current models and technology.

The Department of Electrical Engineering's staff and students took part in the industry visit. It was an excellent session. Throughout the technical sessions, all of the participants engaged with them and enjoyed themselves.

Webinar on "Basic Computing Skills for Current Job Market" organized by Department of Electrical Engineering

It feels immense pleasure to announce that the Department of Electrical Engineering of JIS College of Engineering has successfully organized a webinar on "Basic Computing Skills for Current Job Market" on 3rd November 2022 from 2.30 PM. In this program, honourable speaker, Mr. Aniruddha Biswas, Assistant professor, department of Information Technology, JIS College of Engineering delivered the lecture on this webinar's abovementioned theme. Dr.

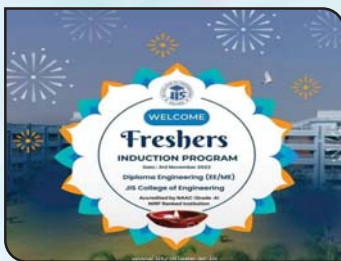

Alok Shrivastav, Dr. Maitrayee Chakrabarty and Gargi Roy were the program coordinators. Mr. Sanjoy Das (Jr.) gave continuous technical support.

The session continued with a thorough discussion and hands-on. The session was then followed by a Q&A session with the students. Overall, it was an excellent session. More than 40 students attended the session. The overall discussion was an engrossing experience for all of our participants.

Induction Program of Diploma Students Organised by Department of EE & Department of ME

The warm-up session of the Induction Program for the 1st year diploma students commenced on 3rd November 2022 by welcoming all cheerful young learners. The program started with an introductory speech by honourable principal Prof. Dr. Partha Sarkar, Dr. Sabyasachi Sen, Dean of R&D, Dr. Papun Biswas, Dean of Innovative Learning and HOD of the department of Electrical Engineering, Dr. Sandip

Ghosh, HOD of the department of Mechanical Engineering shared their valuable thoughts with the fresher students. Mr. Milan Sasmal from EE department and Mr. Palash Biswas from ME department were briefed about the class and college protocols. Subject teachers also interacted with the students. 40 number of new students attended the program on that day. The youngsters visited the labs and college premises and finally departed with high energy and positive thoughts.

Seminar On Industrial Energy Conservation Organized by Department of Electrical Engineering

It feels immense pleasure to announce that the Department of Electrical Engineering of JIS College of Engineering has successfully organized an "Industrial Energy Conservation" seminar on 10th

November 2022 from 2.30 PM. The main objective of this program was to enrich the knowledge about energy conservation in today's engineering industry. The coordinator of this program was Mr. Sudip Das, Assistant professor of the Electrical Engineering department. Mr. Sampad Bose, faculty of PCRA, Govt. of India, was the program's speaker. Participants gained knowledge about the importance of
